## **DETAILED ACTION**

### ***Status of Claims***

1. The petition to withdraw holding of abandonment, filed 4/18/2008, has been granted.
2. This action is thus responsive to amendment filed on 3/17/09, where Applicant amended claims 1,10,17,37,45,51, and cancelled claims 28-36,61-69. Claims 1-27,37-60 remain pending.

### ***Response to Arguments***

3. Applicant's arguments and amendments, filed 3/17/09, with respect to the rejection of claims 1-27,37-60 have been fully considered and are persuasive. Therefore the rejection of these claims has been withdrawn.

### ***Notice of Supplemental Action***

4. A new search is being performed to identify applicable references that may be applied as prior art to the claims. This is a preliminary action notifying the Applicant of a detailed pending action with other rejection(s). A supplemental action will be following this notice, which will reset the response period and which will present any further findings that result from the search.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2457

6. Claims 1-27,37-60 rejected under 35 U.S.C. 102(e) as being anticipated by Forin (US Patent 6594701).

7. Forin anticipates the claims because Forin discloses a client requesting data packets (i.e. objects) to be transferred from a host. The host specifies credits (i.e. identifiers) and transfers frames that include the credits and the data.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
